TIRE SCREW KIT SKIN PACKAGED

This handy kit was designed to help prevent the tire from spinning on the rim with low tire pressure. Each kit contains 35 grade 8 hex head screws and the proper drill bit to complete two wheels. It's a must for the serious competitor.

#4318

WHITE TIRE MARKER SKIN PACKAGED

The molded oil base paint stick resists weather, washing and peeling off. It's pointed on one end for detailed filling in and flat on the other for renewing the white in the popular raised letter tires.

#4322

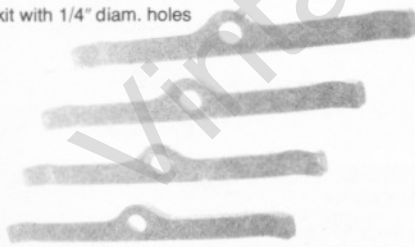

VALVE COVER HOLD-DOWN BRACKETS SKIN PACKAGED

Help prevent oil leakage from stamped valve covers with these steel hold-down brackets. They allow you to tighten down covers and help to prevent bending the flange.

8 per kit with 1/4" diam. holes

#3681

EXTRA WIDE VALVE COVER CLAMPS SKIN PACKAGED

These extra wide valve cover clamps are designed to spread the effective sealing area on stamped steel or aluminum valve covers. They are made of heat-treated steel (black-oxide finish) with 1/4-inch holes.

4 per set

#4395

Related Sales: Custom valve covers, valve cover gaskets, oil filler/breather caps, chrome air cleaners.

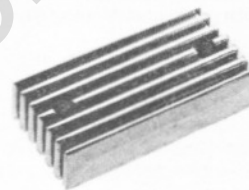

MR. GASKET DIE CAST ALUMINUM VALVE COVERS

BOX PACKAGED
DESIGN PATENT #252878

Mr. Gasket valve covers combine the traditional 'finned' appearance with the latest, state of the art thin wall casting technique, keeping weight to a minimum, yet assuring a positive seal. The covers are available in polished aluminum or black kinkle finish, with applications to fit small block Chevy and small block Ford. The covers are complete with a PCV knockout, and a twist in breather/oil filler knockout, which will accept Mr. Gasket's #2061, 2062, or 2069 filler cap. An optional matching breather #4358 or #4359 is available, designed exclusively for these covers.

Chevrolet small block, 283 thru 400 cu. in., fully polished exterior	#4360
Chevrolet small block, 283 thru 400 cu. in., black kinkle finish with satin-finished fins	#4361
Ford small block, 221 thru 351 Windsor, fully polished exterior	#4364
Ford small block, 221 thru 351 Windsor, black kinkle finish with satin-finished fins	#4365

ALUMINUM VALVE COVER BREATHER SKIN PACKAGED

Mr. Gasket's valve cover breathers are designed to match the #4300 series Mr. Gasket valve covers. A removable insert plate built into the valve cover allows this breather to be installed easily and blend with the unique valve cover design. Made of die-cast aluminum, the finned side areas conceal openings that provide free breathing through a polyurethane foam element. The breather neck and internal baffle in the valve cover help to retain oil in the valve cover instead of being lost through the breather. One per kit.

Polished, high lustre finish

#4358

Black kinkle finish with satin-finished fin tops

#4359

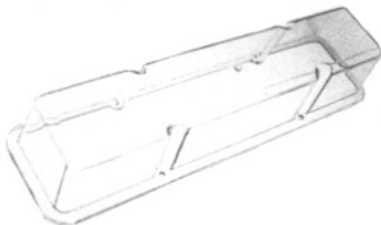

VALVE COVER SPEED STUD SKIN PACKAGED

Because of the additional sealing needed with vacuum systems, simply hand tightening the wing nuts is not sufficient. The unique speed studs allow a quick, easy removal with a 1/2-inch socket. The lightweight, aluminum body is clear anodized for a long-lasting finish. 1/4"-20 x 1-1/2" set screws and a 4-3/8-inch aluminum body are supplied. Set screws may be secured to the head or to the aluminum body. Two per kit.

VALVE COVER WING BOLTS SKIN PACKAGED

Chrome-plated for beauty and durability, wing bolts make valve cover removal fast and easy. They are precision engineered and feature extra long threads to allow for the additional thickness of Mr. Gasket's reusable valve cover gasket and custom valve covers. Two pieces per kit.

1/4"-20 thread for stock covers — Chevrolet V-8 #1390
1/4"-20 thread for custom stock covers — Chevrolet V-8 custom covers, Chrysler Wedge engines — stock Corvette 1964 and up — stock Ford V-8, 260-289-302 cu. in. #1391
5/16"-18 thread for custom covers — Ford V-8, 352-390-427 cu. in. — Pontiac V-8 1955 and later #1393

VALVE COVER BREATHERS SKIN PACKAGED

Chrome-plated, high-impact, plastic valve cover breathers are ideal for stock and custom valve covers. Urethane filter relieves pressure without oil loss. One per kit.

7/8" × 2-1/2" smooth top #1360
7/8" × 2-1/2" finned top #1361
1" × 4-1/2" smooth top #1365
1" × 4-1/2" finned top #1366

DZUS VALVE COVER FASTENERS SKIN PACKAGED

Valve cover fasteners are designed for use when speed in the pits is as important as it is on the track. Just a one-quarter turn on each screw releases valve cover. Fasteners are easy to install; no special tools are required. Two per kit.

Fits all Chevrolet V-8, Mopar 383-413-426 cu. in.
